

AVENGER[®]

HIGH PERFORMANCE POOL CLEANER

- Simple self installation, installs in minutes.
- Quickly and efficiently cleans up leaves and debris from your pool.
- Comes complete with hose & accessories.
- Suitable for all pool surfaces.
- All components are UV stabilized for long life.

Avenger Pool Cleaner is the ultimate in automated pool cleaning. Simple to install, it features patented AutoPilot® buoyancy and steering control system that provides unrivalled manoeuvrability and superior performance. Designed to work in your pool effortlessly, the Avenger cleans, climbs and vacuums your pool like no other. This makes the Avenger the intelligent choice.

Hi-Grip™ foot offers superb wall climbing ability.

The Avenger incorporates reliable everlast diaphragm technology giving quiet and dependable operation.

Inclusive of 11 individual hose lengths. Unique interlocking ribbed cuffs for extra strength ensuring hose durability and longevity.

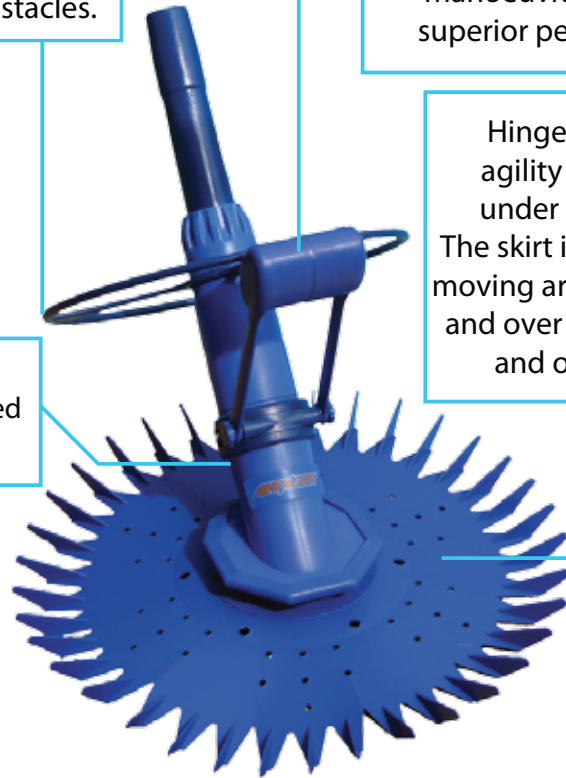

In-Line Valve - Speed control valve allows for precise water flow enabling Avenger to run at optimal performance.

Avenger's unique deflector enables it to manoeuvre steps, corners and other obstacles.

Internal Mould Weight for stability and enhanced performance.

AutoPilot® buoyancy and steering control system provides unrivalled manoeuvrability and superior performance.

Hinged skirt provides agility without folding under the skirt fingers. The skirt is designed to keep moving around sharp corners and over lights, main drains and other obstacles.
